## Objective:

I am a Junior Software Developer seeking a position that presents opportunities to make the most of my enthusiastic drive and love of all things software architecture, and code more efficient applications working on your team. I have an insatiable hunger for learning and evolving my approach to developing leaner work. Curiosity is my best friend in regards to software architecture. I intend to use my skills and experience that I have acquired and refined over the years and at Eleven Fifty Coding Academy, and bring them to where they are more fitting. By joining your team, I am here to bring greater satisfaction to all persons whom use our service, as well as all whom I collaborate with.

## Education

- **2021 June - November: Graduated Eleven Fifty Academy - Software Development Immersive Learning Program -**  
A 24-week immersive learning program for Software Development taught with industry-guided curriculum, real-world project-based learning, and 500+ hours of logged coding time and training
- **2018 - 2019: Studied Computer Science at Ivy Tech Community College -**  
Followed the Computer Science curriculum (Java, Mathematical Logic, Web Design, Calculus) until COVID closed the schools.
- **September 2015- June 2016: Studied Painting at the Vienna Academy of Visionary Art in Vienna, Austria.**  
Studied painting in the old master's tradition of mentor and apprentice

## Technical Skills:

**Languages/Libraries:** C#, ASP.NET, SQL

**Cloud Technologies:** Azure, GitHub

**CI/CD:** Agile Methodology, Scrum, Git, CRUD

**Databases/ORM:** SQL Server, Relational Databases, Entity Framework

**Web Technologies:** HTML, CSS, APIs, MVC, Responsive web design, Bootstrap

**Testing Tools:** MSTest

## Functional Skills and Capabilities:

- Creative coding enthusiast who thrives on rigorous problem solving
- Strong discipline and work ethic
- Knows the best way to fit my role in a group to achieve common goals
- Strong ability to communicate and write clearly so as to eliminate ambiguities
- Has a burning desire to improve and expand my knowledge
- Knows that proper organization creates optimum efficiency in the workplace
- Very competent with visual designs
- Bilingual in spanish
- Confident and calm in a demanding, fast-paced environment
- Excellent memory and ability to switch back and forth between responsibilities
- Greatly enjoys serving others and making people's day better, keeping integrity and respect as a priority

## Technical Projects

### Podcast App - [MusaMoussa/PodcastApp \(github.com\)](https://github.com/MusaMoussa/PodcastApp)

- An app that collects real live data from other podcast's API's including new episodes to listen to

### Candor - [onedayherenow/Candor \(github.com\)](https://github.com/onedayherenow/Candor)

- An anonymous idea-rater MVC app where users can register and create usernames; They then can create and post ideas and then receive anonymous feedback from other users

### Social Media App - [jrfoerster/SocialMediaApp \(github.com\)](https://github.com/jrfoerster/SocialMediaApp)

- A social media app API where users can create posts, comments, and replies, as well as "likes".

## Professional Experience

### *Kona Grill* - March 2019 - December 2021- Server - Carmel, Indiana

- Developed ability to spread myself thinly across multiple parties while maintaining and preserving full efficiency and adequate focus to each
- Developed the mindset of doing the smallest tasks as if they are the most important tasks in the world, knowing that the biggest achievements are comprised of many small tasks
- Learned ways to make even the gloomiest of guests crack a heartfelt smile and thus, improve dining experience
- Learned to take in visual cue's to learn about guests so that I can better serve them

### *Angelica's Gold Leaf Frames* - August 2016 - March 2019 - Carmel, Indiana - *Gilder*

#### Achievements:

- Learned the several different techniques and steps required to accurately make the frames from start to finish
- Was given a certain number of frames that I would complete before the day was finished
- Learned to be flexible with my abilities, often working on several different sections of different frames on the same day
- Learned which styles corresponded to which frames
- Tasks included applying gesso to the frames, applying clay, sanding the frames, applying gold leaf the frames, shining the gold leaf on the frames, and cleaning the store.

## Awards

### Eleven Fifty Academy's "Teamwork Core Value" Award
